

LUCKY-TECH Membranes Pvt. Ltd.

LUCKY-TECH MEMBRANES

WE COVER EVERYTHING, EVERYWHERE

From Architectural Roofing to Massive Event Halls, from Air Domes to Biogas Gasholder s and more

an exclusive partner of **SIOEN**[®]

luckytech.in

With Decades of proven expertise in the field of Advanced Technical Textiles / PVC Coated Fabrics, pioneers in Lightweight Membrane Innovation. Leading the way with applications such as Tensile Structures, Biogas Domes, Large Span Exhibition & Warehouse Tent Structures, Truck Side Curtains, Roll Doors, Flexitanks & many more.

Committed to sustainable energy solutions that not only benefit the environment but also empower communities. By harnessing the power of biogas, we empower communities to become more self-sufficient and resilient. Our Gasholders not only provide clean energy but also help reduce dependency on fossil fuels, contributing to a more sustainable and equitable future for all.

Lucky International is a part of diversified business group dealing in PVC & PVDF coated fabric technical textiles for various applications such as Tensile membrane structures, tents, truck side curtains, truck canopy, high speed roll up doors and many more applications.

At Reearth Renew, we're dedicated to revolutionising the reinforced/refurbished PU/PVC Coated Fabric industry with our commitment to sustainability and innovation. We believe that these products can be both practical and environmentally responsible, and we're passionate about offering solutions that minimize our ecological footprint while maximizing functionality and performance.

In 1940

Started manufacturing of PVC Leather Cloth
Dharampur Leather Cloth Company Ltd (1st Generation)

In 1990

Started manufacturing of PVC Coated Fabrics
Coated Sales Co Pvt Ltd (2nd Generation)

In 2006

Partnered with SIOEN, Belgium
Lucky International (3rd Generation)

In 2020

Expansion Plans; started
LUCKY-TECH Membranes Pvt Ltd
a formidable team of 100+ people, envisioning commendable progress

In 2023

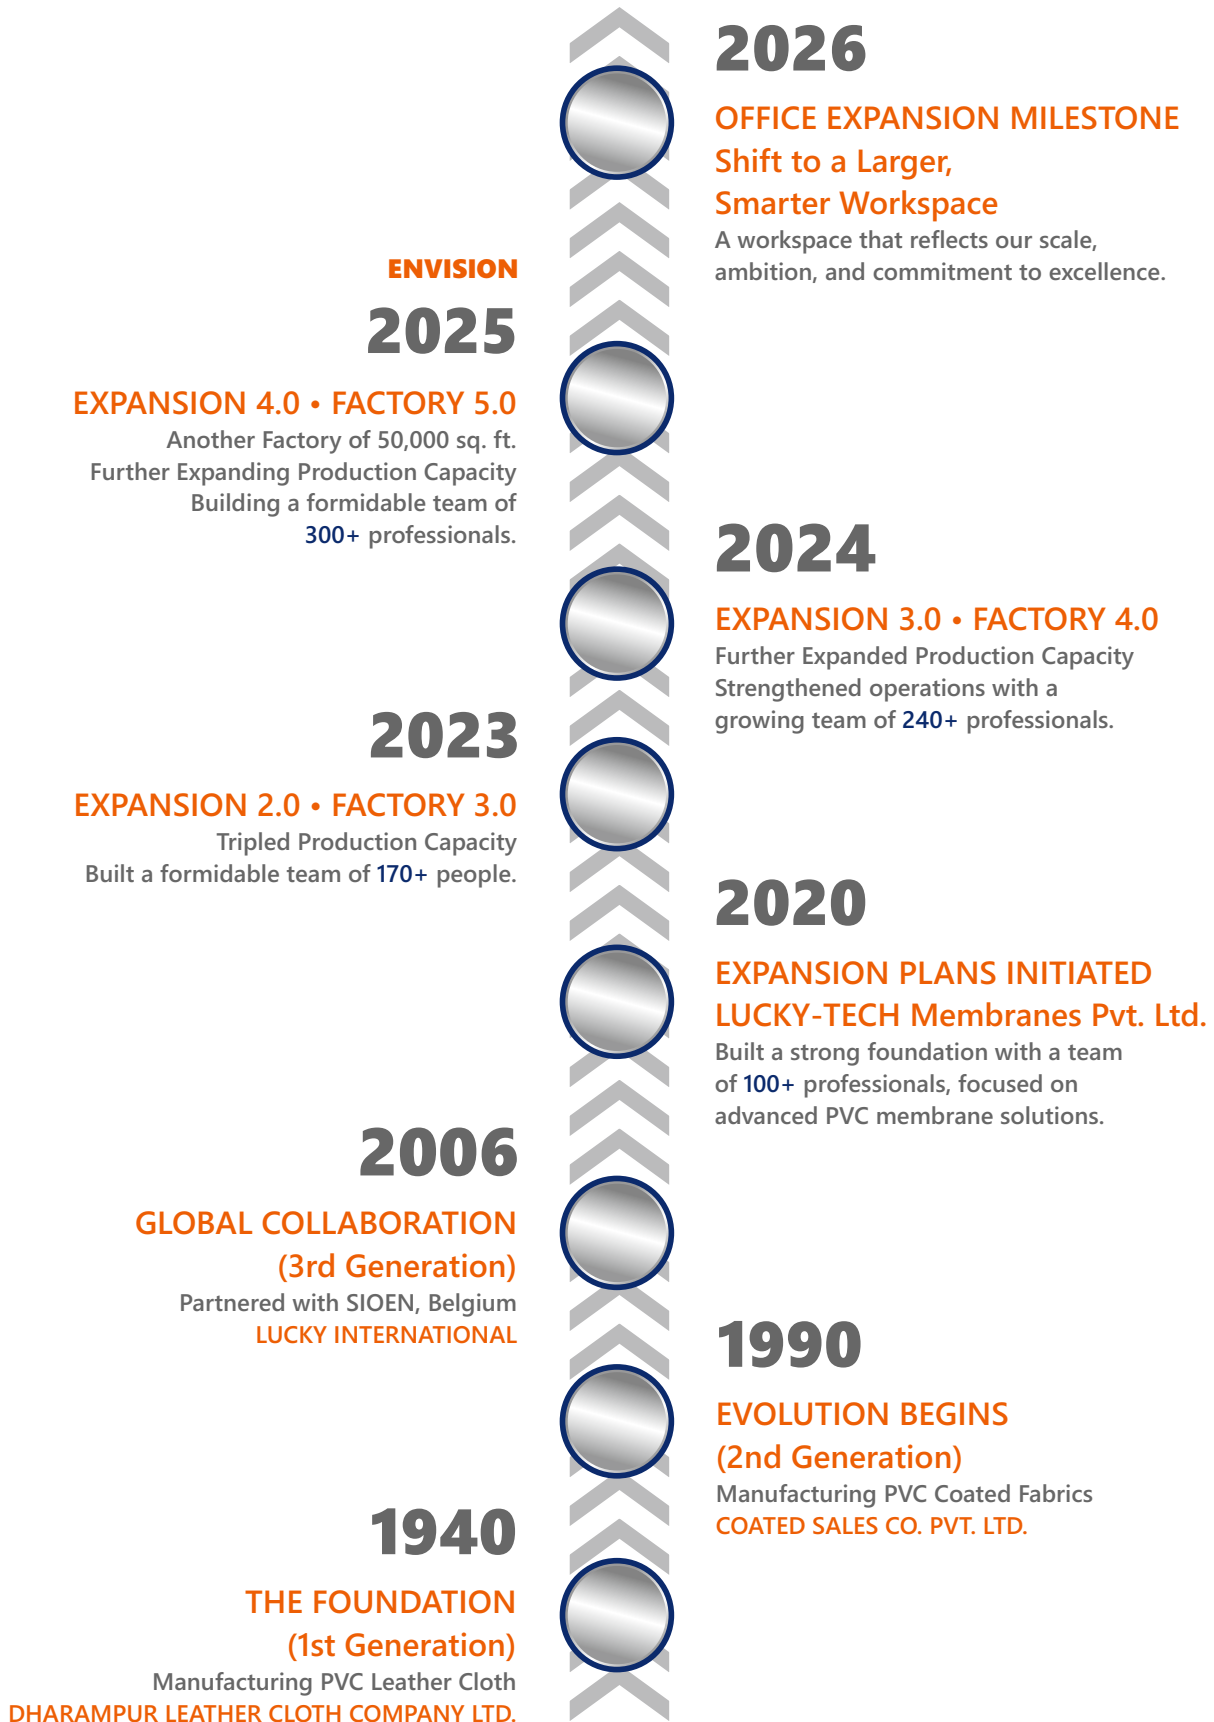

Expansion 2.0 - Factory 3.0
Tripled Production Capacity
built a formidable team of 170+ people

In 2024

Expansion 3.0 - Factory 4.0
Further Expanded Production Capacity
built a formidable team of 240+ people

Envision 2025

Expansion 4.0 - Factory 5.0 - another factory of 1,00,00 sq. feet
Further Expanding Production Capacity
building a formidable team of 300+ people

WHAT YOU GET FROM US!

Pressure Testing – Strength Testing

Add life / durability to your product

OUR RESEARCH & DEVELOPMENT ACTIVITIES

Investing in people, production, equipment and research

Addressing INDIA's need for High performance Engineered Solutions in PVC/PVDF Coated Fabrics has been a priority for Lucky since the company's inception in 2006. Through co-operative research, internal development, and global involvement, Lucky has provided innovative and effective market leading solutions in PVC/PVDF Coated Fabrics for applications such as Tensile Structures, Biogas, Gasholders, Truck Tarpaulins, etc. across the globe.

LUCKY's value & culture is based on the delivery and reliability of high quality products and solutions that are both effective and efficient. The cornerstones of our brand are the performance in advanced technologies, our innovativeness and services. Working in partnership with our customers is a driving force for the success of maintaining our leading position in the market. The LUCKY brand reflects the values of the company.

In 2018, we introduced ground breaking **SEAMLESS WELDING**, which closes the seams, strengthens the welds, thereby increasing the durability by over 35%.

Sincerely,

SUMIT JHAVERI

Director - R & D

OUR SPECIALITY **SEAMLESS WELDING**

Our patent pending - Seamless Welding (where we SEAL the SEAMS to prevent dirt/dust entering the fabric from the seams) is one of our Big wins- **which gives your product 35% longer Durability than normal conventional products.**

Normal Welding Bump
Polyester Fabric Exposed

OUR EXPERIENCE. YOUR ADVANTAGE.

Seamless Welding
Smooth Edges covered with PVC

- Reinforces the Welds
- Seals the Seams
- Prevents Dust seeping into the base fabric
- Easy cleaning of Dirt, Dust accumulated at the Seams

We Promise To Be Your **Strongest Partner**

Ex-Stock Available - Over 5,00,000 Sq. Meters of Raw Stocks Available

Professionally Organised - Technical Expertise & Skilled Team since 2006.

45,000 Projects Completed - Tensile, Biogas, Tents, Trucks, Roll Doors, Storage Tanks, etc...

OUR STRENGTH. YOUR ADVANTAGE

We Promise To Be Your **Strongest Partner**

State-of-the-art - European Standard Factory

Professionally Organised - Technical Expertise & Skilled Team since 2006.

Subject: Letter of appreciation for supply of Double Membrane Biogas Balloon to CEID Consultants and Engineering Private Limited

Dear Shri. Punit Jhaveri

We would like to express our sincere appreciation for your service to us as one of our most reliable regular suppliers of Double Membrane Biogas Balloon to all our CBG projects PAN India. Ever since we signed our contract, you have provided the highest quality products with even better customer service. Deliveries are often received earlier than expected, and you are quick to resolve any issues that arise.

We are very proud that you are involved in OGMC (Oil & Gas marketing Company) first CBG project by supplying Double Membrane Biogas Holders at Jaipur for Indian Oil and 8 Nos. of Double Membrane Biogas Balloon in its first ever CBG project using 200 TPD Paddy Straw as raw material producing 20 TPD CBG capacity at Gorakhpur, Uttar Pradesh. Also, supply of Double Membrane Biogas Holders to key projects involves particularly GAIL's first CBG project using Municipal Solid Waste at Ranchi and all of our signed CBG projects in different parts of the country.

We look forward to extending our contract with you for years to come and hope you will continue to provide such excellent service to us. We could not conduct our business without you for the supply and excellent services for Double Membrane Biogas Balloon.

Thank you for a favorable and a smooth business together for the last few years, and we look forward to many more.

Warm regards,

For & On-behalf of CEID Consultants and Engineering Pvt Ltd

ML Gandhi
Director

We have Visited Lucky Tech for Assessment of Facility for supply of Biogas Membrane for our upcoming Biogas Project. They are well expert in their field and their passion for excellency in every activity they do is unparalleled. Their approach is process oriented and believing in adding value to customer. We wish Team Lucky Tech all the very best.

Thermax

"I have worked with many companies on the past but nothing like Lucky-Tech. The way you all handled & sorted out the diameter problem.

Loved how you all send tool & tackles "

Abhirat Agarwal

"A Trusted Partner in Biogas Industry: Lucky International-Lucky Tech"

We at Arka Brenstech Pvt Ltd have relied on Lucky International-Lucky Tech for our biogas balloon double membrane needs for years, and for good reason. Their quality is unmatched – the membranes are durable, gastight, and built to last under harsh conditions. And let's not forget the cost! Compared to competitors, Lucky Tech offers incredible value, letting us optimize our clients biogas operations without breaking the bank. But it's their service that truly sets them apart. Their team is knowledgeable, responsive, and dedicated to overall the project success. Whether it's a technical question, a delivery hiccup, or just some expert advice, they're always there to support us. In the biogas industry, reliability is everything, and Lucky International-Lucky Tech has consistently earned our trust. I can surely recommend them to any one who is looking for a biogas balloon double membrane supplier that prioritizes quality, cost-effectiveness, and exceptional service, look no further than Lucky International-Lucky Tech. They're more than just a supplier; they're a true partner in the biogas journey.

Srinivas Kasulla

Working with Lucky is always been a pleasure since last 4 years. The quality of product is excellent, service support no issue and more important is customer care.

Punit and team is like family. We wish them best luck and success in future.

We are using their product for biogas to power and biogas to CBG projects and are very happy about the products quality, FR and UV and weldings are so perfect. We had no issues with the operation of their products.

Gajanan Patil

"It was all due to your support for timely taking our job on priority so that we could complete this in time, This is installed in the India's largest free of cost veterinary hospital by Shree Kalyan Goshala Sansthan and being inaugurated today by Hon'ble Chief Minister of Rajasthan along with many more ministers."

Shree Kalyan Goshala Sansthan

We are extremely pleased with the services provided. The quality of work delivered has been outstanding, with great attention to detail and commitment to excellence. What impressed us the most was the adherence to the promised timelines – every stage was executed with precision and efficiency, ensuring smooth progress without delays. Their professionalism, clear communication, and dedication made the entire process seamless and stress-free. We highly recommend their services to anyone looking for quality from LUCK TECH, reliability, and timely delivery. Thank you NITIN

Balaji Dasappa

Hats off to LUCKY-TECH team. They are true partners who have your back.

Our 2 balloons got damaged due to operational challenges.

LUCKY team responded quickly, gave correct solution & ensured we got delivery at the earliest minimizing our daily losses due to in-operational plant.

LUCKY team- keep up this true spirit & keep growing.

Karan

"It's been 10 years since we associated with Lucky international. It was an absolute pleasure working with Punit and team. Punit and Sumit are very professional and great to work with! They exceeded my expectations every time.

Great team of professional and ethics minded people. They deliver on time and are very, very reliable and easy to work with. Each time they have gone above and beyond to support us. The team is super friendly and thanks entire Lucky International team to be part of every project of Creative Skyz"

Shrinivas Devasani

To Whosoever it may concern. ...It gives me immense pleasure to say that we are associated with Lucky International for their unique balloon (Single Membrane and Double Membrane) supply. We are working in waste to energy, bio gas field from last 17 yrs and are associated with different balloon manufactures, but the instant services that we get from Lucky is simply remarkable, their product is far away in terms of Quality and at par with other suppliers from the cost point. We wish them All the Very Best for their future Endeavour and assure them that they will be our permanent associate for such requirements in future.

Satish Bharad

"Thank you for being solution oriented and for helping us move forward with the work"

Brendan O'Molony

We have Visited Lucky Tech for Assessment of Facility for supply of Biogas Membrane for our upcoming Biogas Project.They are well expert in their field and their passion for excellency in every activity they do is unparalleled. Their approach is process oriented and believing in adding value to customer. We wish Team Lucky Tech all the very best.

Jitendra Sidhpura

Hi, This is La Fabrica Exteriors. I'm writing this review for LUCKY-TECH Membranes Pvt. Ltd., LUCKY-TECH Membranes Pvt. Ltd. is a first class and deluxe brand in Tensile Structure Industry that has provided multiple exclusive tensile structures overall India. The designing, the fabric quality, the finishing of the product is so perfect and outstanding as well as unique. The staff is friendly , cooperative and well experienced to handle unpredictable complex situations. I'd like to heartily thank Mr. Nitin Rathod, Mr. Punit Jhaveri, Mr. Sumit Jhaveri, Mr. Mehul, Mr. Rahul and the entire team for constant support and exceptional endeavor and efforts. You guys have helped La Fabrica Exteriors reach top notch in all these years.

Best wishes,

Aftab Sayyed

The future is **us.**
